# FORESTS FOREVER: Their Ecology, Restoration, and Protection
by John J. Berger

With a foreward by Charles E. Little
author of *The Dying of the Trees*

This groundbreaking new nonfiction book explains how forest ecosystems work and makes an urgent and eloquent plea for their conservation.

" *In this meticulously researched and magnificent book ... Berger has taken the fate of the forests out of the woods and placed it where it squarely belongs, at the heart of civilization.* "

~Paul Hawken, author of ***Blessed Unrest*** and ***The Ecology of Commerce***

288 pages, including 88 pages of color and black and white photos.

" *... a smashing, timely, and totally appropriate indictment of the corruption of the public interest in management of land and forests ...* "

~George W. Woodwell
Founder & Director Emeritus
Woods Hole Research Center

" *If a bible for ethical, yet productive, forestry exists as a blueprint for the forestry industry, Forests Forever is the New Testament.* "

~Arnold Newman, Ph.D., Int'l Center for the Preservation of the Tropical Rainforest

Co-published by Forests Forever Foundation and the Center for American Places at Columbia College Chicago. Distributed by University of Chicago Press
